PROFESSIONAL SUMMARY

Front-End Developer specializing in **React.js** and **TypeScript**, with **4+ years** of hands-on experience building responsive, scalable web applications in remote environments, plus cross-platform mobile development with **React Native** and **Flutter**. Skilled in REST API integration with **Axios**, server-state management with **React Query**, and **Progressive Web App (PWA)** development; experienced with Swagger, Apidog, and Firebase. Focused on clean, maintainable code and user-friendly interfaces.

TECHNICAL SKILLS

Languages	JavaScript (ES6+) • TypeScript • Dart • HTML5 • CSS3 (Flexbox, Grid)
Front-End	React.js • Next.js • jQuery
State & Data Fetching	Redux • Context API • React Query (server state, caching, synchronization) • Axios • async/await & Promises
UI & Styling	Tailwind CSS • Ant Design • Bootstrap • React Bootstrap • CSS-in-JS • CSS Preprocessors • Responsive & Adaptive Layouts
Mobile / Cross-Platform	React Native • Flutter (Dart) • React Navigation • Flutter Navigator • Android & iOS
APIs & Backend Services	REST API Integration • Swagger • Apidog • API Testing • Firebase (Authentication & Database) • API Contract Alignment
PWA & Performance	Progressive Web Apps (offline access, installability) • Data-Fetching Optimization • Caching • Error Handling & Loading States
Architecture & Practices	Component-Based Architecture • Reusable & Modular Components • Role-Based Views • Cross-Browser Compatibility • Clean Code • UI/UX Implementation
Tools & Workflow	Git & GitHub • Remote Team Collaboration • OS Concepts • Networking Fundamentals
Soft Skills	Problem-Solving • Time Management • Creativity • Communication • Client Collaboration

PROFESSIONAL EXPERIENCE

Front-End Developer (Remote)	Galaxies Technology	2026 – Present
- Develop and maintain scalable web applications using React.js and TypeScript within a remote, cross-functional team. - Build and optimize Progressive Web App (PWA) features to improve performance, offline access, and installability. - Integrate RESTful APIs with Axios and manage server state, caching, and synchronization with React Query to improve performance and user experience. - Use Swagger and Apidog for API documentation, testing, and endpoint validation; collaborate closely with backend developers to stay aligned with API contracts. - Design reusable, modular UI components that improve maintainability and scalability. - Implement robust error handling, loading states, and optimized data-fetching strategies for a smoother UX. - Ensure responsive design and cross-browser compatibility across devices and screen sizes.		
Freelance Front-End Developer	Self-Employed	2023 – 2025
- Built Printly, a web application for managing printing services, using React.js, TypeScript, and Redux. - Implemented dynamic pricing logic based on user-selected printing options. - Managed application state with Redux for consistent, predictable behavior across the app. - Built responsive user interfaces with HTML, CSS, and reusable React components. - Worked directly with the client to gather requirements and deliver regular project updates.		
Web Content Developer	ABG Egypt	2022 – 2024
- Designed and developed a custom CMS enabling easy content management and updates. - Wrote and edited web content that consistently drove website traffic growth. - Performed data entry and verification; identified and resolved errors, improving data accuracy.		

PROJECTS

- EvTickDashboard** — *JavaScript, React, Tailwind CSS* Jan 2026
- Full-featured admin dashboard for managing events, tickets, users, and real-time analytics; lets organizers track ticket sales and monitor users.
- MoheetDashboard** — *TypeScript, React* 2025
- Admin dashboard for managing customers and vendors in the Moheet application, with role-based views, data tables, and real-time management.
- ModaTech** — *TypeScript, React* Dec 2025
- E-commerce platform covering electronics, jewelry, and men's fashion, with product filtering, cart management, and a fully responsive layout.
- Printly** — *React, TypeScript, Redux* Jun 2025
- Web app for managing printing services with customizable options, dynamic pricing, and real-time price calculation; built with reusable components.
- Burgerizza** — *TypeScript, React* Oct 2025
- Restaurant web app with menu browsing, an ordering flow, and responsive design.
- HerElegance** — *Flutter, Dart* Jan 2026
- Cross-platform (Android & iOS) mobile app for women's fashion shopping: browse products, view details, and manage profile.
- EvTick** — *Flutter, Dart* Dec 2025
- Mobile app for managing and booking event tickets with an intuitive UX and booking flow.
- RIWAK-G5** — *HTML, CSS, JavaScript, Bootstrap* 2024
- Responsive e-commerce furniture website with dynamic product listings and a clean UI.

TRAINING & EDUCATION

- Front-End & Cross-Platform Development** | *ITI – Intensive Training Program* 2025
- Hands-on training in HTML, CSS, JavaScript, **React.js**, **Next.js**, **TypeScript**, **React Native**, and **Flutter**.
 - Built responsive interfaces and reusable UI components for web and mobile; applied Context API and async/await.
 - Developed cross-platform mobile screens integrated with APIs for dynamic content.
 - Gained foundations in OS concepts, network essentials, and Git/GitHub collaboration; completed real-world mini-projects focused on UI/UX, performance, and clean code.
- Front-End Development Diploma** | *MEC Diploma* 2023 – 2024
- Focus: React.js, JavaScript, HTML, CSS, APIs, and State Management.
 - Built responsive designs deployable across devices with minimal changes; styled components with CSS-in-JS.
 - Developed a single-page React application giving users easy access to company resources, using async/await, Promises, Context API, and reusable components.
- Bachelor of Commercial English (Accounting Department)** | *Sadat University* 2021
- GPA: 84%

LANGUAGES

Arabic — Native | **English** — Very Good
